

BathroomsFull Field

Field Name (Standard Name): BathroomsFull

Definition (May contain rules that must be observed)

A room containing all 4 of the 4 elements constituting a bath, which are; Toilet, Sink, Bathtub or Shower Head. A Full Bath will typically contain four elements; Sink, Toilet, Tub and Shower Head (in tub or stall). However, some may considered a Sink, Toilet and Tub (without a shower) a Full Bath, others consider this to be a Three Quarter Bath. In the event that BathroomsThreeQuarter is not in use, this field may represent the sum of all Full and Three Quarter bathrooms.
