

# RESO Data Dictionary Wiki 1.7

## Welcome to the Real Estate Standards Organization (RESO) Data Dictionary Wiki

This wiki describes and organizes the terms and fields related to the transmission of real estate data. Please review the [Introduction](#) pages and familiarize yourself with the left-side navigation bar for items like Resources, Groups, Fields and Lookups. Each item includes a definition, attributes and points of integration. See [Data Dictionary Terms and Meta Definitions](#) for additional meanings of terms within a page. If you want to be part of the real estate data conversation, please [join](#) our growing ranks as a RESO member. Membership includes free certification. *DD 1.7 Approved: December 18, 2018.*

## Important for Certification

Data Dictionary 1.7 is the most current version for RESO certification testing purposes.

**RESO Members:** Certification testing specification and approved worksheet are located [here](#).

**Nonmembers:** Static versions of the testing specification are and accompanying worksheet are posted here [for information purposes only](#).

**TESTING SPECIFICATION** (pdf) | **WORKSHEET** (xlsx)

## Mobile Users

The Data Dictionary Wiki is built upon Confluence, a web-based wiki. The Data Dictionary is searchable within the Confluence app, but switching to the desktop version while using Chrome, Safari, Firefox and other mobile browsers will offer wider visibility of the left-side navigation pane.
